Wireless Acquisition Announces New Vice President of Sales and Business Development

Scottsdale, AZ January 19, 2004 Wireless Acquisition announces today that Joseph J. Cunningham has joined the company as Vice-President, Sales & Business Development. In his new role he will be responsible for leading the company's worldwide marketing initiatives for subsidiary companies EMCEE[®] Communications and Conifer[®] Wireless.

Cunningham joins Wireless Acquisition after more than 20 years of experience in the communications industry, including 13 years at Virginia Communications, where in his most recent role he served as President. Says Cunningham, "My experience as a service provider allows me to fully understand the end-user's needs and to work with our engineering and manufacturing departments to provide products and services that make good business sense to our clients. Our mission is to be the premier supplier and integrator of traditional wireless broadband, video and VOIP products and services. Our products and services not only perform, but they allow the service provider to provide profitable services to their customers."

"We are excited to have Joe on board with the company", said Jim Yard, Company CEO. "He brings extensive industry experience to the company and he has a vast knowledge of the complexity of this unique industry."

Wireless Acquisition will be showcasing Conifer and EMCEE products at the WCAI Technical Symposium January 20 through January 22 in San Jose.

About Wireless Acquisition LLC

Wireless Acquisition (www.e-wti.com) is a privately held telecommunications technology investment, management, and development company working with strategic sellers to acquire under managed or underperforming businesses that provide mission-critical telecommunications solutions and services. The selection criteria requires that these businesses have a recurring revenue base and have an existing customer base with long term and favorable relationships. Their strategy is to assemble a complete portfolio of equipment and systems to provide wireless service providers with a one-stop source for video, voice and data networking systems. Their portfolio includes companies and product lines that represent presence in

over 100 countries worldwide, and which products and services are utilized by over one million end user customers.

About Conifer Wireless

Conifer Wireless (www.coniferusa.com) is a leading global provider of subscriber products for broadband wireless systems. Conifer delivers point-to-point and point-to-multipoint solutions, including active and passive subscriber equipment for both licensed and un-licensed service providers. Conifer provides solutions that support video, voice, and data. Conifer's product portfolio spans the frequency spectrum of 1.7 to over 6 GHz. Over one million subscriber equipment packages, sporting the Conifer brand, have been installed in over 60 countries worldwide.

About EMCEE Communications

EMCEE Communications (www.emceecom.com) is a global supplier of communications systems, equipment, and services. Major markets are wireless communications - which includes MMDS, ITFS, broadcast, private communications networks, common carrier, and government. EMCEE equipment has been installed in over 80 countries worldwide.
