Conifer Wireless Announces Opening of New Manufacturing Center and Corporate Headquarters

Tempe, AZ January 3, 2005 Conifer Wireless, a subsidiary of Wireless Acquisition LLC, announces it has opened a new corporate office and manufacturing center. The new 18,000 square foot facility is located in the Hohokam Business and Technology Park in Tempe, Arizona. The building was acquired under a negotiated lease/purchase arrangement, and underwent a significant upgrade and remodel to facilitate the expanded Conifer manufacturing operations and new corporate headquarters for Wireless Acquisition LLC.

Jim Yard, Chairman and CEO for Conifer Wireless said, “We have completed the move of our operations and have finished the building upgrades. We are now fully operational in our new facility. This new facility will give us room to continue growth and our new location is more central to the valley and close to Sky Harbor Airport. We were able to continue operations and customer support throughout the transition thanks to extra effort from our employees. We can now provide better support for our customers because of the additional space that the new building provides.”

About Conifer Wireless: Conifer Wireless (www.coniferusa.com) is a leading global provider of subscriber products for broadband wireless systems. Conifer delivers point-to-point and point-to-multipoint solutions, including active and passive subscriber equipment for both licensed and un-licensed service providers. Conifer provides solutions that support video, voice, and data. Conifer's product portfolio spans the frequency spectrum of 1.7 to over 6 GHz. Over one million subscriber equipment packages, sporting the Conifer brand, have been installed in over 60 countries worldwide.

About Wireless Acquisition LLC: Wireless Acquisition (www.e-wti.com) is a privately held telecommunications technology investment, management, and development company working with strategic sellers to acquire under managed or underperforming businesses that provide mission-critical telecommunications solutions and services. The selection criteria requires that these businesses have a recurring revenue base and have an existing customer base with long term and favorable relationships. Their strategy is to assemble a complete portfolio of equipment and systems to provide wireless service providers with a one-stop source for video, voice and data networking systems. Their portfolio includes companies and product lines that represent presence in over 100 countries worldwide, and which products and services are utilized by over one million end user customers.
